ROSES
for
your garden

WAITE'S GARDENS
INC.
EATONTOWN NEW JERSEY

IN PRESENTING this little rose folder, we have endeavored to congregate in concise form, a collection of varieties that will thrive under ordinary conditions, and with a little extra care and attention will give much pleasure and satisfaction to the planter, with their large blooms of most delightful colors,—an uninterrupted succession of floral splendour from June until October.

We guarantee our plants to be true to name and healthy, all 2-year old, low-budded, field-grown plants, but we will not replace except where mislabeled.

As we have no control over subsequent treatment after leaving our grounds, the buyer must assume all risks thereafter, whether planted by us or not.
